

Software for Childcare & Daycare Centers

iCare Software streamlines administrative tasks and improves efficiency in childcare centers.

iCare Software is a comprehensive platform that handles child and family information, payments, attendance, scheduling, and staff management, as well as regulatory compliance. Using iCare Software, providers can efficiently manage attendance, generate invoices, communicate with parents, and ensure compliance. The software streamlines processes and enhances efficiency, freeing up providers to concentrate on providing exceptional care.

Streamlined Operations:

With iCare Software, you'll be able to manage all aspects of your daycare center from a single, easy-to-use platform.

Parent Communication:

Keeping parents informed and involved in their child's daycare experience is essential, and iCare Software makes it easy.

Enhanced Child Safety:

Keep children safe by allowing you to easily track who is authorized to pick up each child, ensuring that only approved individuals can do so.

Software tailored to your needs

- **Administration and Record Keeping:** A central database that stores all records related to the children, their families, staff, and other relevant information. Generate reports, track attendance, manage schedules, and maintain records of immunizations, health records, and other vital information.
- **Billing, Payments, and Accounting:** Automates the process of generating invoices, tracking payments, and sending reminders to parents. Integrate with accounting software to streamline financial management.
- **Business Management:** Enable the management of staff scheduling, payroll, performance evaluation, and training. Generate reports on business performance, including occupancy rates, revenue, and expenses.
- **Check-In and Security:** Ensures children are safely checked in and out of the center. Track who has access to the center, including staff and parents.
- **Communication:** Allowing the center to communicate with parents and staff through email, SMS, or in-app notifications. The iCare app also is great for sharing photos, updates, and other information.
Enrollment: Allows parents to enroll their children in the center and manage waitlists, admissions, and transfers.
- **Parent App:** Allows parents to access information about their child's activities, schedules, and progress. Make payments, update their child's information, and communicate with the center.
- **Program Management:** Enables the center to plan and manage programs, activities, and events. Including tracking attendance and generating reports on program effectiveness.

iCare Software is the perfect solution for daycare centers and preschools looking to streamline operations, improve parent communication, and enhance the care they provide to children. With a wide range of features and benefits designed specifically for daycare centers, iCare Software is the industry leader in childcare software.
